Subject: Supporting Letter

SZ&W GROUPA
Suite k-L 14F Trade tower Shanghai 200122 China

Dear SZ&W Group Authorities,

First of all, thank you very much for your kind invitations for the events of SZ&W Group. From the view point of EUAS, participating such kind of events are given opportunities for addressing the major challenges to nuclear policies, regulation and industrial trends, delivering latest developments in key Technologies used in nuclear power industry.

As far as we know that Nuclear Industry Congresses (NIC) is becoming a bridge for nuclear power industry into a new business model fitting to a low carbon and sustainable future, as well as a platform for nuclear power industry decision makers.

In the past events of SZ&W Group provided us good advantages in respect of taking information on energy developments in the world and building relationships with the experts. Also, these kind of events give opportunity for taking big ideas and knowledge to do different and better business.

However, because of SZ&W Group is in close cooperation with country organizations and international associations; the events which are organized regularly and globally by them will give opportunities to EUAS to cooperate with world leader countries and expand its knowledge by exchanging information.

By taking into consideration the past events and the relationship between EUAS and SZ&W Group for long time we have intention for strengthening it.

Therefore, it will be a great pleasure for EUAS to take part in the future events of SZ&W Group and support it as a "Global Supporting Utility".

With our kind regards,

Mehmet BIÇER
Deputy General Manager

Halil ALIŞ
General Manager
Chairman of the Board
